ABOUT ME

I am a Computer Science student who is passionate about coding and web development. I am currently learning programming and building small projects to improve my skills. I am eager to start my career in the IT field and grow as a developer.

PROJECTS

Srijan Apex — Full-Stack Blog Platform

Next.js, ReactJS, Node.js, MongoDB, Authentication

- Built a full-stack blog platform with user authentication and protected access to blog management features.
- Implemented complete CRUD operations for creating, reading, updating, and deleting blog posts.
- Developed login/logout functionality and database integration for managing users and blog content

Real-Time Chat App — Messaging Platform

ReactJS, Node.js, Express.js, MongoDB, Socket.IO

- Built a real-time messaging application with a responsive React interface for instant communication.
- Implemented backend APIs, authentication, and real-time communication using Socket.IO.
- Used MongoDB for persistent storage of users and chat messages.

Pokémon Explorer — Interactive Web App

ReactJS, JavaScript, CSS, REST API

- Built an interactive Pokémon explorer using PokéAPI to fetch and display Pokémon data dynamically.
- Implemented reusable React components, API integration, state management, and responsive card-based UI.

SKILLS

Frontend: ReactJS, JavaScript (ES6+), HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, REST APIs, MongoDB

Tools: Git, GitHub, Cloudinary, Socket.IO

Languages: JavaScript, Python, C, C++

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
